

Solar inverter

SINUS PRO ULTRA-HV 6000 24/230V (3000/6000W) + 80A MPPT (450V) + Wi-Fi

INDEKS:3SSHV30024
EAN: 5904100452125

Features

- Pure sine wave voltage on the output
- Works as a inverter off-grid
- Parameters configuration thanks to LCD display settings
- High voltage MPPT solar charger controller 450VDC
- Cooperation with Ultra-5 energy storage
- Protections: short circuit, overload, temperature
- PC controll software via USB or included external Wi-Fi remote module (preview and control of parameteres

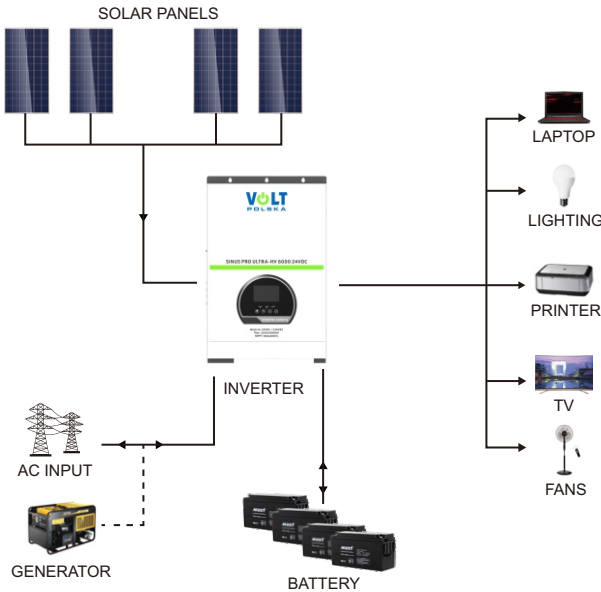

Main functions

Pure sine wave:
The built-in converter produces the pure sine wave voltage at the output. Thanks to this, the solar inverter SINUS PRO ULTRA-HV can power induction devices including power tools, air compressors, air conditioners, refrigerators, freezers.

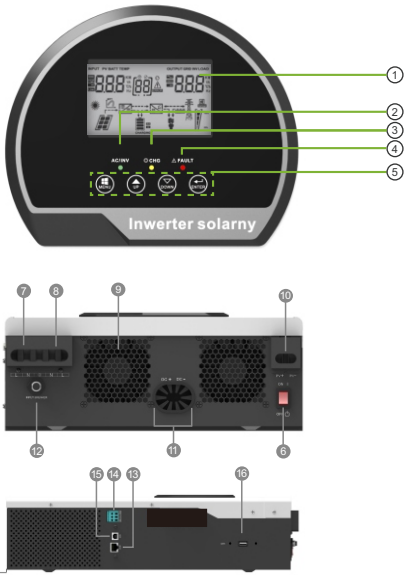

Off-grid:
In off-grid the hybrid inverter operates independently of the user's electrical installation. The energy obtained from solar panels is stored in batteries and then transferred to the connected devices we want to power.

High Voltage: Thanks to which you can connect more solar panels in series instead of in parallel. This ensures greater efficiency of the entire solar panel system.

Solar system connection

Back panel printing description

1. LCD display
2. Status indicator
3. Charging indicator
4. Fault indicator
5. Function buttons
6. Power ON/OFF
7. AC input
8. AC output
9. Fan
10. PV input
11. Battery input
12. Circuit breaker
13. Port Rs485
14. Dry contact
15. USB
16. USB WIFI

Specification

Model	SINUS PRO ULTRA-HV 6000	
Surge Power	6000VA	
Rated Power	3000W	
Inwerter output	Waveform	Pure sine wave
	Voltage	230VAC
	Max efficiency	93%
	Transfer time	10ms(UPS)/20ms(APL)
AC input	Voltage	230VAC
	Voltage range	170~280VAC/90~280VAC
	Frequency	50Hz / 60Hz
Battery	Voltage	24VDC
Voltage range Vmp	150~430VDC	
Max array open circuit voltage Voc	450VDC	
Max current Imp	80A	
Operating Temperature	0°C~50°C	
Netto dimensions	486x322x134mm	
Netto weight	8kg	
Gross dimensions	575x425x229mm	
Gross weight	11,5kg
